

SPECIMEN COLLECTION
Collection Process Guide

MEDICARE

2 SST · 1 LAVENDER · 1 URINE CUP — Always, unless specified otherwise

1

Call the Facility

Inform them you're on the way and share your ETA.

2

Prioritize & Collect

Collect patients on a program that day *first*, then perform collection on the remaining residents on the list.

3

Transport to Lab

Take the collection to Juno Tech Lab.

4

Sort & Reference Lab Lockbox

Sort collections and place in the **Reference Lab Lockbox** for pickup.

5

Notify Logistics

Inform Logistics that specimens are in the Reference Lab Lockbox prior to clocking out.

6

Clean Work Area

Organize and clean your work area before clocking out.

MEDI-CAL

1 SST · 1 LAVENDER (no urine cup) — Always, unless specified otherwise

Facility has
Quest Portal Access?

YES

1

Finish the Requisitions

Before going to the facility — ideally the day before collection.

2

Collection at the Facility

Perform the specimen collection on-site.

3

Leave at Quest Lockbox

Leave specimens with requisitions in the Quest lockbox.

No lockbox? Hand to admin — ask them to set aside for Quest pickup.

4

Notify Logistics

Inform Logistics that specimens have been left in the Quest dropbox.

NO

1

Collect at the Facility

Perform the collection on-site.

2

Bring to the Lab

Take the collection with you to the lab.

3

Sort & Place in Quest Lockbox

Sort specimens, obtain the requisitions, and place in the Quest Lockbox.

Clean Work Area — Organize and clean your work area before clocking out.

Reminder: Log supply receipt via the **Juno Tech Kiosk** before clocking out. If supplies are lacking, notify **Logistics** immediately.
